The Directors/Heads of all National Labs./Instts./Units of CSIR

Sub: Activation of Online PRAN Generation Module (OPGM) for all CSIR PAOs- reg.

Sir/Madam,

With reference PFRDA circular No PFRDA/17/07/12/0001/2017-SUP-CG dated 19-07-2018 regarding adoption of Online PRAN Generation Module (OPGM) for subscriber registration, CSIR had requested NSDL to activate OPGM for all CSIR labs/instts. NSDL has informed that all 40 PAO offices of CSIR may proceed with Online PRAN Generation.

OPGM will expedite the PRAN generation process as movement of physical forms from DDO to CRA will not be required. OPGM has inbuilt validations which helps in avoiding errors and application rejections. It will also help in elimination of the delays in uploading of NPS contributions of new subscribers. The procedure for Screen based OPGM is enclosed herewith for your reference.

Yours faithfully

(Ajit Singh)

Pr.A.O./Sr.Dy.Financial Adviser

**Online PRAN
Generation
Module (OPGM)-
Screen Based**

*Retired life ka sahara,
NPS hamara*

Process flow:

Process :

- Customer fills up the registration form and submits along with KYC documents
- Verification of forms and documents by official receiving the form
- Acceptance of forms and issuance of acknowledgement
- Forwarding of forms to CRA-FC for processing
- Processing of form and generation of PRAN

- Lesser Time Required for PRAN Generation
- No dependency on CRA
- Cost Effective

Manual PRAN Generation Process

- Considerable time & effort spent to check every PRAN application
- Accuracy cannot be ensured in case of all the applicable fields.
- Time lag – movement of physical form from DDO to CRA FCs
- Higher probability of application Rejections
- Above might lead to delay in contribution credit

Automated OPGM Screen Based Process

- Inbuilt validations
- Expedites PRAN Generation
- Faster contribution credit

- Nodal Office can choose from any of the following options for PRAN generation with PrAO approval

Online

- Screen based data entry
- File based Upload

- Any one of the above modes of subscriber registration can be adopted.
- Choice of any of the modes needs to be communicated to CRA by the Nodal Office .

➤ **File Based Module:**

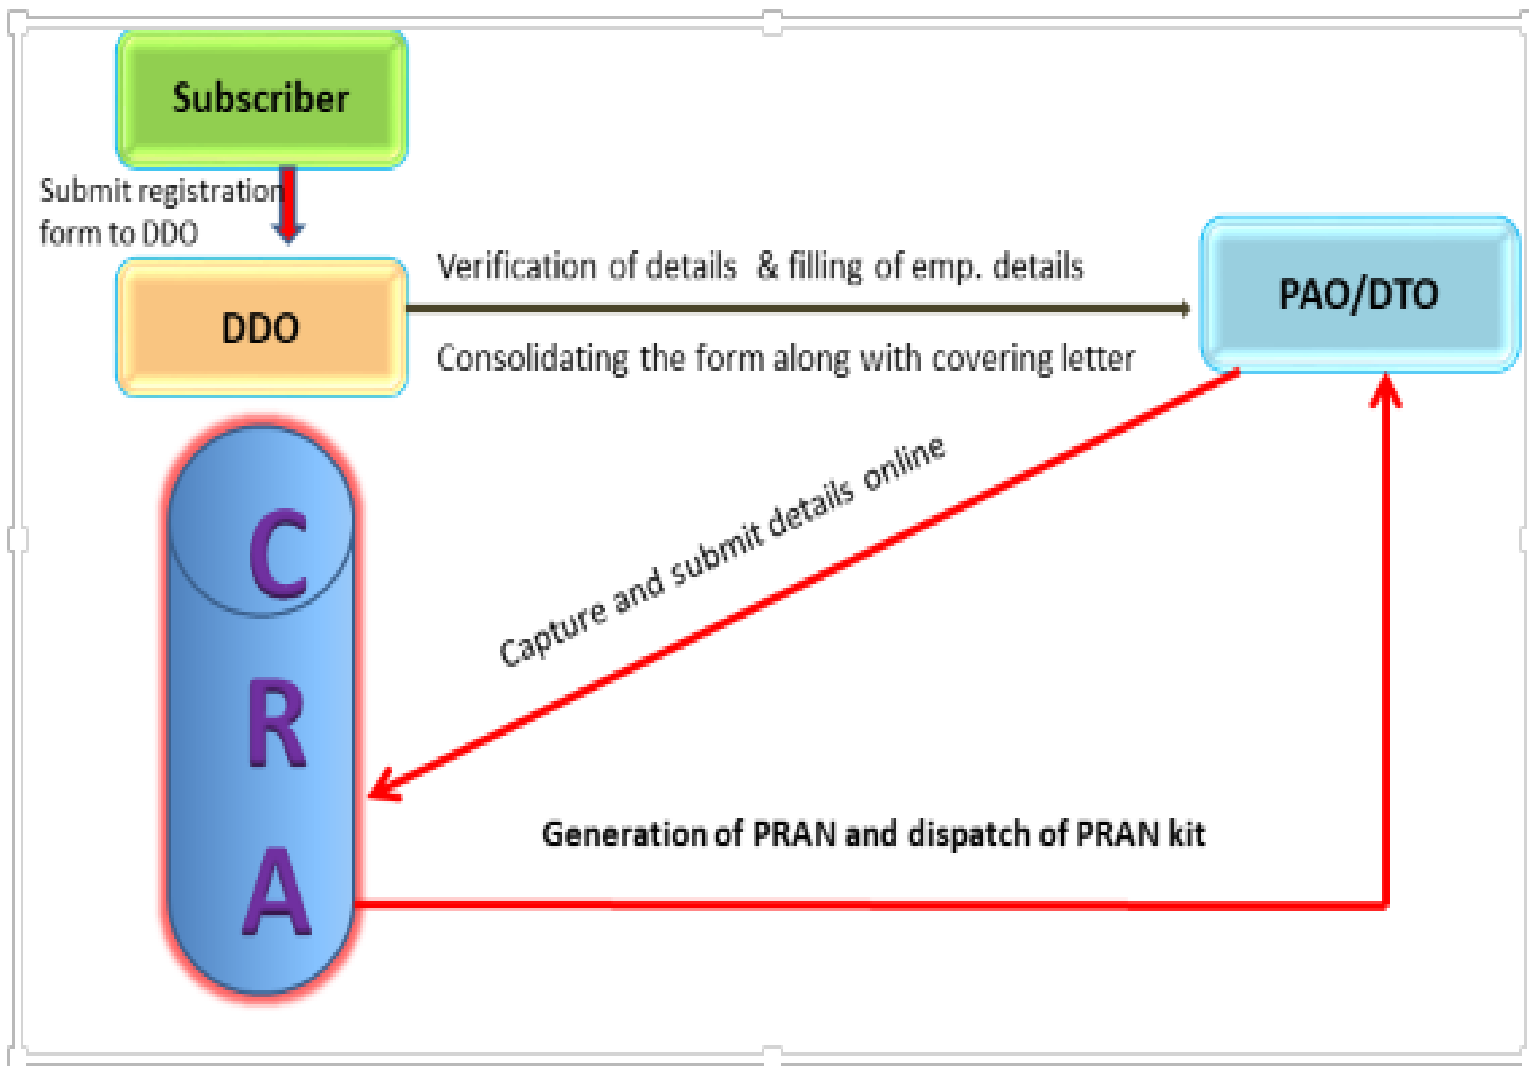

Under this procedure, along with the requisite infrastructure a Full-fledged back-office is required at the Nodal Offices end for implementation of File based OPGM. In this process of PRAN generation, the Nodal Offices shall collect, digitize and verify the details submitted by the NPS subscribers in its own BackOffice and shall prepare the file for upload from back office as per file format specified

➤ **Screen based Module:**

The Nodal officer will have to enter the Core details and the related information pertaining to the Subscriber, as is filled up initially by the Subscriber, on the CSRF. Once this is done, colour photograph and signature would have to be uploaded by the nodal officer. Once the request is authorized the PRAN will be generated and would be available to download(under the DDO-SUBSCRIBER List menu) under the NPSCAN application.

- Submission of written request through PrAO office to NSDL CRA.
- Type of OPGM facility required i.e. File based or Screen Based needs to be specified.
- PAO Reg. no. to be mentioned.

Process Flow

SCREEN BASED OPGM

- User Friendly Interface
- Fields to be captured made in sync with the physical forms
- Option to save data in an intermediate manner and capture later
- Control mechanism: ***Maker – Checker*** activity
 - After successful upload of file in CRA system and successful validation, PRAN will be generated. The same will be available to Nodal Offices in their log-in
