

Join CSIR as A Research Associate

To study economic impact of technology in various sectors

Required enthusiastic RESEARCHERS for a CSIR study on determining Economic Impact of Technology Applications.

The Council of Scientific and Industrial Research (CSIR), the preeminent science and technology organization of India with 37 labs and 39 field centres, is an autonomous body.

CSIR has a rich research tradition and an increasing focus on innovation. In this context, the CSIR is conducting a study of the economic impact of technologies and evaluation of future potential which will involve a primary survey and field travel.

Candidates should be M.A. (Economics) or B.A. (Honours) in Economics with MBA or B.Tech. with MBA.

Work experience is desirable. They will preferably have:

- **A development outlook**
- **An appreciation of technology applications**
- **Exposure to survey and field work, and**
- **Basic econometrics training**

Successful candidates will be recruited as research consultants for this assignment.

The tenure of the assignment will be a year.

The remuneration will be as per CSIR Research consultants' scales (expected to be between Rs. 20,000/- and Rs. 40,000/- per month, depending on the qualifications and experience)

Last date of application: August 02, 2011

**Interested candidates may send in their resume to
Dr. Manisha G Singh at mgsingh@csir.res.in or sms queries at 9810277979**
