

NEWS BULLETIN

21 TO 25 NOVEMBER 2022

Compiled by Science Communication and Dissemination Directorate (SCDD), CSIR, Anusandhan Bhawan, New Delhi

21st November, 2022

CIPM is a supreme international committee, which is responsible for Development and Implementation of Weight and Measures globally. Prof. Venu Gopal Achanta is among 18 members worldwide from different countries. He is the 7th Indian to be in the prestigious international committee.

In a historic election, Prof. Venu Gopal Achanta, Director, CSIR-National Physical Laboratory (CSIR-NPL), New

Delhi, has been elected as a member of the prestigious International Committee for Weights and Measures (CIPM). Prof. Gopal was declared an elected Member of CIPM in the recently held 27th General Conference on Weights and Measures (CGPM) meeting during Nov. 15-18, 2022 at Paris, France. The election of Prof. Gopal is not only significant for CSIR-NPL and advancement of metrology in the country, wherein metrology is the backbone of industries and national missions of Govt. of India i.e. 'Atmanirbhar Bharat', 'Clean and green India', "Swasth Bharat, Sashakt Bharat", etc., but is also pride of nation as it would enhance India's global visibility and participation in global decision making. Prof. Achanta is among 18 elected members from different countries and 7th personality in Indian history elected to CIPM after a few decades.

The CIPM is a supreme international committee which functions under the authority of General Conference on Weights and Measures (CGPM), a highest intergovernmental international organisation created as diplomatic treaty called Meter Convention signed on 20th May 1875 in Paris. It is responsible for development and implementation of International Systems of Unites, universally abbreviated as SI, its wide dissemination; make

necessary modifications time to time for the advancement of science and technology. Advancement of Industry in the country is directly dependent on the state of its metrology capabilities.

At present, CGPM is represented by 64 member countries and meets every 4th year at International Bureau of Weight and Measure (BIPM), France. The CIPM advises and recommends the amendments, changes, alterations to the SI to the CGPM for formal adoption. It can also pass resolutions and recommendations about the basic units of measurements, if needed, at its own authority. The primary objective of the CIPM, comprised of 18 members from 18 member states (nations), is to promote international harmonization of SI, meets annually, deliberate reports sent by its 18 Consultative Committees (CCs), among other matters brought to its notice as per mandate. Each member of the CIPM takes the responsibility of Chairmanship of one CC.

The CSIR-NPL, the National Metrology Institute (NMI) of India was established by Council of Scientific and Industrial Research (CSIR), New Delhi on January 4, 1947. The Government of India enacted the "Standards of Weights and Measures Act" for the first time in 1956 to ensure that every citizen has access to uniform standards of weights and measures those are traceable to the SI units. During the year 1957, India became member of the CGPM.

After taking over the charge of the Directorship of CSIR-NPL, New Delhi during June, 2022, Prof. Venu Gopal Achanta is continuously working hard towards taking the metrology

movement forward not only at national level but internationally too. Dr. K.S. Krishnan, the founder Director of CSIR-NPL was the first member elected to CIPM. The last elected CIPM member of India was Prof. E. S. R. Gopal, the then Director, CSIR-NPL (1991-1997), decades

ago.

This year CGPM has adopted 7 important resolutions including new SI prefixes ronna (10²⁷), quetta (10^{30}), ronto (10^{-27}) and quecto (10^{-30}). With this nomenclature, mass of the electron (1 quectogram) and weight of earth (1 ronnagram) can be expressed easily in SI units. The

CGPM also plans to resolve the issue of leap second. The details of all the important decisions taken during this CGPM are available at BIPM website-

(https://www.bipm.org/documents/20126/64811223/Resolutions-2022.pdf/281f3160-fc56-<u>3e63-dbf7-77b76500990f</u>).

NEERI okayed as consultant for Chandigarh's waste management plan

25th November, 2022

The Finance and Contract Committee (F&CC) of the Municipal Corporation today decided to appoint CSIR – National Environment Engineering Research Institution (NEERI), Nagpur, as consultant for its project "Integrated Solid Waste Management Processing Facility at Chandigarh".

F&CC also approves

Relaying of paver/concrete track in green belts of Sector 37 and 38 at an estimated cost of Rs 37L

Reconstruction of concrete flooring in back service lane at Sector 20 for Rs 19.19 lakh

Laying sewer line near Patel Market in Sector 15 for an estimated cost of Rs 22.46 lakh Repairing entries, raising level of track at Joggers' Park, Sector 15 Spending Rs 45.24 lakh on construction of walking track in various parks of ward number 26 Relaying concrete walking track at Garden of Shadows in Sector 15 for Rs 24.56 lakh The consultant will vet a request for proposal (RFP)/ detailed project report (DPR) prepared by the Indian Institute of Technology (IIT), Ropar, on integrated solid waste management (SWM) processing facility. Following this, a new waste processing plant will be set up in Sector 25.

Another important agenda of organising capacity building workshop for 92 participating cities in Chandigarh on December 19 and 20 was also approved. It will cost the civic body an estimated Rs 30 lakh. The delegates will be shown the city's pedestrian as well as cycling infrastructure. The Ministry of Housing and Urban Affairs had asked the MC to hold such an event while appreciating its works in the two sectors.

sitions and the course has made a big impact on the flour milling industry." Suresh D. Shakhare, coordinator, ISMT, CSIR-CFTRI, said the 41st batch of ISMT students have bagged attractive jobs and added that 100% placements had been registered this year too. Many students have secured jobs in African and Asian countries. The student who got the ₹45 lakh annual package has been placed in a Trinidadian company. So far, 41 regular courses in flour milling technology have been completed since the launch of ISMT. In all, 836 students, including 117 international stu-

institute and are now serving in various roller flour mills in India and abroad. "There has been qualitative change in the working of these mills as per the feedback received from the milling industry," the institute said. ISMT is one of its kind in South East Asia, with facilities and expertise from CFTRI with fully dedicated computer controlled pilot roller flour mill where students are taught milling systems as per the International and Indian sub-continental standards. Haris Nellikote, director, Parisons Foods Pvt. Ltd., Calicut, a former student of ISMT, said he start-

try after completing the ISMT course and expanded the production in the last 30 years. The course was instrumental in encouraging him to set up the industry.

Mr. Haris and Dr. Singh gave away medals to meritorious ISMT students. Mohit Sandeep Kawale got the G.K. Jalan Gold Medal, while Pratik Ganpatrao Patil bagged the Delhi Flour Mills Silver Medal. The Shivaji Roller Flour Mills Bronze Medal was bagged by K. Balasubramani. S.R. Shurpalekar Gold Medal was bagged by Pratik Ganpatrao Patil and Indrani Dasappa Gold Medal was secured by Mohit Sandeep Kawale.

lakh.

Disproving that only young graduates in the IT sector secure placements with handsome salaries, the ISMT student, after finishing the 12-month residential course in flour milling technology, managed to get an overseas placement with the whopping pay. Almost all students of the 41st ISMT course have

EIL bags work-order for Bio-ATF Plant at MRPL

25th November, 2022

New Delhi: Navratna PSU Engineers India Limited (EIL) said on Friday that it has been awarded a work order by another Petroleum Ministry PSU, Mangalore Refinery & Petrochemicals Limited (MRPL), for the preparation of BDEP (basic design and engineering package), DFR (detailed feasibility report) and pre-project activities for Bio-ATF Plant at MRPL. This information was shared by EIL in a regulatory filing to the stock exchanges on Friday. However, the project cost has not been disclosed by the PSU.

According to the filing, the bio-ATF plant, which will use non-edible oils and used cooking oil as feedstock, shall be the first-of-its-kind in India and will be based on technology developed

by CSIR-IIP and EIL. Bio-ATF, also known as Sustainable Aviation Fuel (SAF) fuels, would not only contribute to India's net-zero carbon emission target but will also help in cutting India's dependence on crude oil imports.
