

Indo French Centre for the Promotion of Advanced Research (CEFIPRA)

Collaborative Scientific Research Programme: CEFIPRA supports high quality research groups through collaborative research projects in advanced areas of basic and applied science to nurture scientific competency through Collaborative Scientific Research Programme.

As per new pattern in CSRP the priority will be given for thematic areas through high quality collaborative research projects in India and France. Eligibility to apply Principal Collaborators and Joint Collaborators (Indian & French) should have permanent position in an Indian or French University/R&D Institution.

The areas of S&T identified include Pure and Applied Mathematics, Computational sciences. Life & health sciences, Pure and Applied Physics, Pure and Applied Chemistry, Earth & Planetary Science, Materials Science. Environmental Sciences, Biotechnology and Water

Further details may be found at http://www.cefipra.org/Collaborative_Research.aspx

Last date for submission of proposal is 15 July, 2021.
