

Indo French Centre for the Promotion of Advanced Research
(CEFIPRA)

Industry-Academia Research & development Programme (IARDP): This Programme was launched to support collaborative research involving Industry & Academia of both the countries. It has worked as an enabling platform for the organizations in India & France to realize their potential in terms of product and process development. It has facilitated innovation, risk taking for Industries and also bringing the private industry, public institutions and the government under one roof to promote the research and innovation between India & France. The projects supported under the programme have resulted in prominent outcomes in the form of some products which have already come to the market and some promising research leads seeing ray of hope for commercialization.

Thrust area: All the areas of technology of interest to the Industry
