

“ETHICS IN PROJECT MANAGEMENT, MONITORING & GOVERNANCE”

JANUARY 24, 2022

INTERACTIVE SESSION WITH EMINENTS

**Prof. SC Lakhotia,
BHU**

**Prof. AK Singhvi,
Honorary Scientist, PRL.**

Project management is important for R&D organizations such as CSIR, as regular assessments of the progress can help us plan for and decide on the next steps in a timely fashion. Of critical importance here is to abide by good R&D practices, including high ethics in research and governance.

CSIR has in place robust Procedures and Guidelines for Project Development, Implementation & Monitoring, and Ethics. Head, Innovation Management Directorate (IMD) and Head, Central Planning Directorate (CPD) will briefly highlight the extant CSIR frameworks on the subject.

The national experts, Prof. Lakhotia and Prof. Singhvi will interact with the CSIR fraternity to discuss these important topics, share their experiences and wisdom, and guide us on the right path.
