

Council of Scientific & Industrial Research

Invites Young and Dynamic Researchers for Challenging Research Assignment

Required enthusiastic researchers for a Council of Scientific and Industrial Research (CSIR) study on determining economic impact of CSIR technology applications.

CSIR, the preeminent science and technology organization of India with 37 labs and 39 field centres is an autonomous body. CSIR has a rich research tradition and an increasing focus on innovation. In this context, the CSIR is conducting a study of the economic impact of CSIR technologies which will involve a primary survey and field travel.

Candidates should be B.A. (Honours) graduates (including final year) or pursuing an M.A. degree in economics. They will preferably have

- A development outlook
- An appreciation of technology applications
- Exposure to survey and field work, and
- Basic econometrics training

Successful candidates will be recruited as consultants for this assignment. The tenure of the assignment will be initially for the summer and may continue up to a year. The remuneration will be as per CSIR norms (expected to be about Rs. 10,000/- per month).

- Last date of application: Monday, May 23, 2011
- Shortlist: Wednesday, May 24, 2011
- Interviews: Thursday, May 26, 2011

Interested candidates may send in their resume to Dr. Manisha G. Singh at mgsingh@csir.res.in by Monday, May 23, 2011 or sms queries at 9810277979.
